

V GUARD HIGH PERFORMANCE MESH

Our most commonly supplied and installed fence, V guard is a great value solution for low-mid level security, ideal for perimeter fencing.

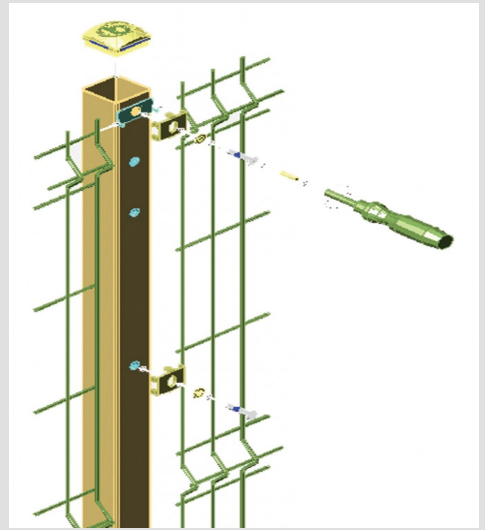

Suitable for most demarcation applications, such as schools, business premises and retail outlets, V guard uses a rigid panel system with integrated profiled-beams with 200 x 50mm mesh apertures, giving good see-through visibility, strength, and aesthetics.

As a one-stop shop, we can supply and fit additional toppings such as razor or barbed wire, along with electric gates and intercom for tightened security across your perimeter.
